15. SUMMARY

(Leave Blank) ✓

1. ~~(S/NOFORN)~~ (b)(1) TW is currently in the process of developing a chemical agent capable of being employed in shallow water areas. This chemical agent would adversely affect the skin (NFI) of anyone who came in contact with it. Once this agent is developed, TW intends to use it around TW's strategic islands located between TW and CH to stop infiltrators (NFI).

2. ~~(S/NOFORN)~~ The TW government is also conducting research and development studies about the feasibility of establishing electrical or fire barriers around these islands (NFI).
